

The WideBody Enclosure (WB) is a key lockable sturdy metal enclosure designed for installation of Integrity Access Control solutions where all the Integrity equipment, 3 or 8Amp power supply and backup batteries can be contained within a single tamper monitored enclosure.

The enclosure will house all the equipment required for as many as 8 doors. Multiple enclosures can be installed throughout a building of any size to provide Access Control for the entire facility while keeping the total quantity of installed enclosures to a minimum.

The WideBody design provides very efficient use of wall mounting space, while it's low profile side elevation protrudes less than 100mm from the mounting surface.

Designed to suit a range of Integrity Products

- Integrity Access Controller (IAC)
- Intelligent LAN Access Module (ILAM)
- 8 Zone LAN Expanders
- 3 or 8Amp SMART Power Supply
